R5300P Remote Airborne Particle Counter

1.2 LPM

The Airy Technology® R5300P Remote Airborne Particle Counter measures particles from 0.3 to 25.0 µm. These compact and user-friendly instruments are purpose-built for ambient and indoor air quality monitoring, industrial hygiene, environmental research, and health & safety applications. Featuring a 1.2 LPM f low rate, the R5300P is optimized for high-concentration environments providing improved accuracy, reduced coincidence loss, and extended instrument lifespan in comparison to higher-flow models.

Built for research, industrial hygiene, indoor air quality, and cleanroom applications, the R5000 Series delivers reliable, high-performance monitoring across a wide range of environments. From the cleanest labs to the dirtiest worksites, confidently monitor any environment thanks to the industry's highest particle concentration limits.

One of the key advantages of the R5000 Series as a remote particle counter is its built-in touchscreen display. It provides real-time visual feedback for technicians working in critical areas, enabling immediate identification of elevated particle counts. Adjustable audible alarms offer an additional layer of awareness in critical environments.

Designed for continuous, powered operation, the R5000 Series is ideal for fixed installations where uninterrupted monitoring is essential. Data can be managed directly on the device, through a facility monitoring system or through the free Airy Technology® software. Export raw data in .CSV or generate custom reports (ISO 14644-1, EU GMP Annex 1, or FS 209E). Remote diagnostics are available through the software from anywhere with an internet connection. The R5000 Series can function as a standalone unit or be seamlessly integrated into building automation and cleanroom management systems.

Features and Benefits

- Stores up to 45,000 sample records, 1,000 sample locations and 50 recipes
- · Long life laser diode technology for reliable performance
- Approximates mass concentration in µg/m³ with density and refractive index corrections
- User selectable PM sizes from 0.3 μm to 25 μm including TPM of up to 25.0 μm
- · Large, intuitive color touch screen display with an easy-to-use icon-driven interface
- Versatile mounting options
- Resolve issues quickly from any location with internet-enabled remote diagnostics
- Annotation function allows user to save 32 character notations to a live sample record
- · Common interface ensures ease of use across all products
- Connect using Ethernet, USB, Wi-Fi (optional), RS 485 or RS232
- Displays user-definable reports for ISO 14644-1, EU GMP Annex 1 and FS 209E
- Built-in visual and audible alarms with comprehensive alarm management
- Complies with ISO 21501-4 and JIS B9921 standards
- Easy to clean, lightweight stainless steel enclosure with minimal particle traps
- 2 year Limited Warranty (Extended and Lifetime warranties available)

Specifications

 Model
 R5300P

 Size Range
 0.3 to 25 µm

Size Channels Factory calibrated at 0.3, 0.5, 1.0, 2.5, 5.0, 10.0 µm variable binning

Counting Efficiency 50% @ 0.3 µm; 100% for particles >0.45 µm per JIS 50% @ 0.5 µm; 100% for particles >0.75 µm per JIS

Flow rates 1.2 LPM

Concentration Limits 27,000,000 particles/ft³ @ 10% coincidence (per ISO 21501-4),

50,000,000 particles/ft3 @ 10% coincidence (as tested and validated1)

Aerosol Concentration Range 0.01 to 20,000 µg/m³ Light Source Long life laser diode

Counting Efficiency 50% @ 0.5 µm; 100% for particles >0.75 µm per JIS

Zero Count < 1 count / 60 minutes (<1 particles / 6 ft³). No fault count subtraction.

Count Modes Real-Time Meter and graph, cumulative/differential count/m³ and count/ft³, and mass concentration (PM)

Count Alarms 1 to 9,999,999 counts
Calibration NIST traceable

Display 4.3" (10.9 cm) WQVGA (480×272) color touch screen

Optional Printer External thermal printer available
Vacuum Source Internal pump with automatic flow control

Filtered Exhaust Internal HEPA filter

Number of Channels 6

Custom Size Channels Calibration for custom size channels available

Audible Alarm Adjustable integrated alarm

Reports ISO 14644-1, EU GMP Annex 1, FS 209E

Recipes 50 user-configurable recipes

Communication Modes Ethernet, USB, Wireless 802.11 b/g (Optional), RS485 or RS232

Optional Environmental Sensor Temperature ($32-122^{\circ}F$, $\pm 1^{\circ}F$ / $0-50^{\circ}C$, $\pm 0.5^{\circ}C$) and relative humidity probe (15-90% RH, $\pm 2\%$) Alarms on counts for all particle sizes, low battery, sensor failure, environmental sensors and flow rate

Standards ISO 21501-4 and JIS B9921
Calibration Recommended minimum once per year

Calibration Recommended minimum one

External Surface Stainless steel

Dimensions (L x W x H) 5.22 x 2.25 x 9.13 in (13.3 x 5.8 x 22.6 cm) includes barb fittings

Weight 2.6 lb (1.18 kg)

Accessories User manual + Instrument Management Software (IMS) on USB flash drive, isokinetic probe, zero-count filter, USB cable,

and power supply

Optional Accessories Printed manual, external printer and isokinetic probes

Buffer Memory Securely stores up to 45,000 sample records with particle counts, environmental data, locations, and timestamps

Sample Locations Up to 1,000 locations 20 characters long

Sample Time 1 second to 99 hours

Power 110 to 240 VAC 50/60 Hz universal in-line power supply Operating Conditions 41° to 104°F (5° to 40°C) / 20% to 95% non-condensing Storage Conditions 32° to 122°F (0° to 50°C) / Up to 98% non-condensing

Varranty 2 year Limited Warranty (Extended and Lifetime warranties available)

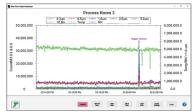

1- Validated by independent analysis see paper available at www.particlesplus.com/aac2022_paper

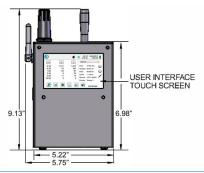

Audible and Visual Alarm Management

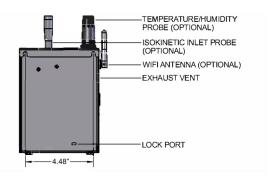

Icon Driven Menus for Ease of Use

Control and Manage Remotely with IMS
